

## DIVIDE EX. MAKES NEW ALTITUDE RECORD

### Gains 40 Cents Over Night Reaching the Peak Price of \$2.60

## MIDWAY IN HIGH GRADE ON THE 800 LEVEL WITH JEWELRY VALUES

The Midway has picked up the last chance ledge in trachyte on the 800 foot level with four feet of very good ore showing plenty of ruby silver in the same outcrop as on the 600 level. The discovery was made four or five days ago and since that time Superintendent C. M. Toland has been drifting and proving up the ledge. The next movement will be to start crosscutting going north where the company expects to develop six more ledges which appeared on the 600 level. The distance to crosscut in order to accomplish this is only 300 feet and it is a safe conjecture that when the last ledge has been cut the Midway will have one of the best showings in the district with a display of high grade that would enable the company to ship the richest cars ever sent out of the district. There is no intention of attempting a high grade record since the jewelry stuff can be used to greater profit by reserving it for sweetening the lower grades and bringing the shipping values of the general run to about 50.

This latest disclosure of wealth is what is known as the Saviour ledge, a name given by Mr. Toland, who was instrumental in opening it at a time when the mine was operating with a scant treasury and the directors were figuring on levying an assessment to defray operating expenses. By finding the Saviour ledge the assessment was averted and, as a matter of fact the mine was changed from a losing venture to one of the biggest propositions in camp with several feet of stuff that would run away in the pictures. This is the same ledge that was struck last week in the Sandgrass workings of the Tonopah Mining company. The location in the Midway is about 2000 feet from the new shaft.

Wines from the 600 level show pay ore. About a week ago Superintendent Toland raised on the ledge in the 600, the one which he went through with the crosscut and proceeded to develop when he opened high grade. He is starting another crosscut on the 600 and expects to encounter. Another ledge, known in the old workings as the Gold ledge, is expected to be picked up in the trachyte in this part of the mine. The trachyte is expected to come in about 50 feet above the 800 level. The company is prospecting from an intermediate level which would be about the 720-foot point and also is getting ready on the 1200 to develop the old ledges.

The Midway is making shipments from ore taken out in course of development as no stopping is being made.

### HEAVY DECLINE IN ORDERS FOR STEEL

(By Associated Press) NEW YORK, June 10.—Unfilled orders of the United States Steel Corporation at the end of May were 4,282,310 tons according to the corporation monthly statement, this is a decrease of 518,375 tons compared with April orders.

**TODAY AND A YEAR AGO**  
Official readings of the thermometer by the United States observer at Tonopah:

	1919	1918
5 a. m.	57	66
9 a. m.	65	74
12 noon	73	88
Maximum June 4	78	84
Minimum June 9	51	66

Relative humidity at 2 p. m. yesterday, 40 per cent.

## SENATE ORDERS TREATY OUT OF THE COVENANT

(By Associated Press) PARIS, June 10.—The council of four met amid an atmosphere of pessimism over the larger questions of peace making with Germany which still are unsolved. It is understood that Premier Clemenceau has not moved from his position against any modification of the terms. No settlement of the Silesian question or that concerning the Polish western frontier has been reached. It is stated that the Silesian problem is tied up with the difficulty of holding a plebiscite without allied occupation, no troops being available for that purpose.

President Wilson received a letter from an unidentified Jugo-Slav saying he heard the president's points and proposed plebiscite and desired to cast his vote in favor of Jugo-Slavia against Italy. Mr. Wilson sent the letter to the secretariat as constituting the first vote submitted on the plebiscite.

(By Associated Press) WASHINGTON, June 10. Senator Knox Republican, introduced a resolution today to have the senate declare it could not concur in the league of nations provisions of the treaty as drafted. He expected his resolution to bring to a more definite stage the fight against the covenant. He asks for separation of the covenant from the treaty before they are submitted to the senate for ratification. The resolution was referred to the foreign relations committee.

Senator Knox offered the resolution after conferring with Senator Lodge. The indications are that the resolution will have the backing of the forces conducting the fight against the league. It is understood to be designed as an official notice to the peace conference that the ratification of the treaty in its present form will be opposed.

The resolution proposed that the "treaty shall be drawn to permit any nation to reserve, without prejudice to itself for future separate and full consideration by its people the question of any league of nations," but that the obligations of Germany and her co-belligerents under the treaty shall not be thereby affected. The resolution would declare it the policy of the United States "in order to meet fully and fairly our obligations to ourselves and the world, that the freedom and the peace of Europe being again threatened, the United States would regard the situation as a menace to its own peace and freedom" and would "counsel other powers affected with a view to devising means for removal of such menace."

A fresh outbreak in the treaty debate was threatened in the senate when Senator Key Pittman began reading the Taft speech favoring the league of nations. Efforts were made for insertion in the record previously had been denied.

## SEAPLANES WIN NAVAL BATTLE

(By Associated Press) KEM, North Russia, (Monday), June 9.—Allied seaplanes attacked four Bolshevik craft on Lake Onega, south of here yesterday. Bombs dropped by the seaplanes did not hit the Bolshevik boats but the machine guns carried by the aircraft raked the deck of the lake boats and silenced their anti-aircraft guns. The Bolshevik flotilla fled and was pursued. One allied plane returned to its base where it reloaded with bombs and resumed pursuit. After the engagement all allied machines returned.

## Over a Million Shares Are Sold, Setting New San Francisco Mark

The market was filled with all kinds of excitement and varying sensations today as the quotations ascended in the early hours and then scrambled back again toward the close when there appeared a rush of profit taking orders that caused the sharp recession. Divide Extension, which closed the previous day at \$2.17 1/2, touched \$2.60, whence it

### MAY USE POISON GAS TO KILL GRASSHOPPERS

(By Associated Press) SACRAMENTO, June 10.—The state is considering employing poison gas like that used during the European war, to exterminate grasshoppers.

## FOUR PLANS FOR GERMAN DEBTS

(By Associated Press) PARIS, June 10.—The plan for reparations which now is proposed to the council of four, according to L'Echo de Paris, consists first in seizing German liquid assets to the value of 250,000,000,000 francs; second is to leave a margin of two years to an accurate idea of the economic and financial situation in Germany may be gained; third after two years to exact payment on account of 125,000,000,000 francs in gold or negotiable securities and fourth to give the reparations committee authority to raise the amount of annual payments by Germany should her capacity to pay increase.

## FRENCH EDITOR GIVES PROPHECY

(By Associated Press) PARIS, June 10.—L'Echo de Paris predicted today that Germany would sign the treaty before July 1, and that the various parliaments will ratify before August. The paper expects the counter proposals of the Germans will be answered Friday and links the Germans will replace the Scheidemann government by another if the present government determines not to sign.

## TREATY REQUEST REACHES PARIS

(By Associated Press) PARIS, June 10.—Secretary Lansing on Monday received cabled copies of the United States senate resolutions asking for the text of the German treaty and requesting a hearing before the peace conference for Edward He Valera and other Irish delegates and referred them to President Wilson.

### FIFTY UNIONS MEET TO JOIN STRIKERS

(By Associated Press) SAN FRANCISCO, June 10.—Representatives of fifty unions of electrical workers in telephone and telegraph offices in central and northern California met Thursday to perfect arrangements for participation in the general strike June 16. T. C. Robbins, general manager of the International Brotherhood of Electrical Workers, announced today.

(By Associated Press) ARCHANGEL, (Monday), June 9.—The last units of American troops south of Archangel except the engineers were withdrawn today.

reacted to \$2.10, or 20 cents below the opening price. No change in mine conditions was responsible as all accounts agree that the Extension has one of the most spectacular showings of any mine in the state. Yesterday afternoon some forty engineers, embracing some of the best known men in the country, were out to inspect for themselves and were fully accorded privileges of the mine. From a statement made to one of the visitors it was learned that five feet of the south wall runs \$265 while on the north four feet yields \$90. In the face of the drift there is a streak twelve inches wide which assays \$180, indicating that the two ore-bodies will average \$200 per ton connected with an intervening orebody 10 feet wide that will break down \$25 to \$30 a ton. Some of the visitors took samples of hornsilver and a company representative secured a specimen about half as large as man's head that runs up in the thousands. One feature that surprised the investigators was the presence of high gold values which assayed freely.

In connection with the statement regarding the Horseshoe, Mr. Garry states it is understood that he had not been at the shaft of that company or expressed any opinion about the trend of the Caldwell ledge struck in the Extension being identical with that found in the Horseshoe. The Brougher company continues trenching on the Anchor Leland claim where the southwestern extension of the Caldwell vein is expected to strike through. It is conceded that the Dividend cannot fail to pick up the rich ledge. The latter sold up to 89 cents today and receded to 70. Brougher lost less than any of the others holding its value to the close which showed a softening with 2 1/2 cents difference from the opening. Divide Consolidated surprised everybody by giving an exhibition of gymnastics that sent the stock from 25 last evening to 38, as the high of today, closing at 32. Divide City reached 40 cents and closed at 35 while Horseshoe opened at 27, rallied to 35 and receded to 28.

Today's sales were the greatest in the history of the San Francisco stock exchange for the short season.

## VILLA NEARING THE RIO GRANDE

(By Associated Press) EL PASO, Tex., June 10.—Villa forces have occupied Guadalupe opposite Fabens, 32 miles east of El Paso, according to information from Fabens. Another force reported to be part of General Angeles' forces is moving toward Juarez. No fighting occurred at Guadalupe. The Carranza garrison was called from there to Juarez last week.

### WIRE OPERATORS WILL STRIKE TOMORROW

(By Associated Press) CHICAGO, June 10.—Only an eleventh hour concession by operating companies will prevent a strike of 70,000 telephone and telegraph operators tomorrow. S. J. Koenkamp, international president of the commercial telegraphers' association announced today.

### COMMITTEE TO REVISE TREATY OF BELGIUM

(By Associated Press) PARIS, (Monday), June 9.—The council of foreign ministers of the peace conference has decided to name a commission of seven to continue discussion of the revision of the treaty of 1839, relating to the status of Belgium.

aggregating 1,098,600 shares with the heaviest trading distributed as follows:

Dividend	175,000
Extension	45,000
Brougher	9,000
East	10,000
Consolidated	71,500
Annex	24,000
Florence	28,000
Horseshoe	170,500
Divide City	62,000
Royal	45,000
Northwest	29,000
Smuggler	17,000
Midway	38,000
Roscoe-Eula	35,500
Nevada	24,000

### ILLINOIS RATIFIES SUFFRAGE AMENDMENT

(By Associated Press) SPRINGFIELD, Ill., June 10.—Illinois today ratified the federal woman suffrage amendment. The house adopted the resolution by 132 to 3. The senate was unanimous. This is the first state to ratify.

## WINNEPEG SAYS STRIKE BROKEN

(By Associated Press) WINNEPEG, June 10.—The sympathetic strike began May 15 in support of the Iron Workers is considered practically broken as far as the effects of the safety, welfare and convenience of the general public is concerned. It is estimated that one-third of the men and women involved in the sympathetic walkout have returned to work.

## BRITISH AIRSHIP READY TO SAIL

(By Associated Press) NEW YORK, June 10.—The mammoth British dirigible assigned to attempt the flight from England to the United States via Newfoundland, June 20, probably will attempt to return if the westward voyage is successful, a British aviation official here said today.

### WISCONSIN RATIFIES

(By Associated Press) MADISON, Wis., June 10.—The legislature today ratified the suffrage amendment.
